

The human body is electric because our cells are electric. Disorders and diseases of the body have vibrational frequencies that are incompatible with healthy cells; thus, they disrupt the cell's natural oscillation and polarity. This disruption creates imbalance and chaos within each affected cell. When cells are in an imbalanced state, they are unable to facilitate the body's functions needed for healing, including ridding itself of heavy metals, parasites, and other toxins. But, when the cells are fully charged, they have more oxygen and are able to experience electrical balance, which results in a healthier attitude, more vitality and a feeling of well being.

Helping patients out of acute or chronic pain is our first goal. Ensuring that they do not regress is a unique component of how we approach care. Our aim is to identify the cause of conditions, not just the symptoms. This allows our patients heal faster and live happier, healthier lives.

Chiropractic works because your body is a self-healing, self-regulating organism. Millions of instructions flow from your brain, down your spinal cord, and out to every organ and tissue. Signals sent back to the brain confirm that your body is working properly. Physical, chemical, and emotional stresses force muscles to contract, locking spinal joints that pinch or irritate nearby nerves. We help improve the function and structure of your spine, reducing nervous system compromise. This is accomplished by applying a precise force to stuck spinal joints. In time, the nervous system revives and health returns. Naturally!

experience the healing benefits

The Alimtox Ionic Foot Cleanse is a high-tech water detoxification system that can assist the body to heal itself. Reflexology has taught us that the foot is a powerful channel and conduit through which your body attempts to cleanse itself of toxic wastes and heavy metals. This unique system was designed place the feet in direct contact with negative ions generated in the water to neutralize acid waste and correct the frequency required for cells to return to a healthy state. When you immerse your feet into the water, the vibrational frequency of the water will affect the vibrational frequency of the body due to the interaction of the magnetic and electrical fields. During the foot bath, you may actually see the cleansing take place as it releases waste such as heavy metals, parasites, and other toxins that have built up over the years. After a 20 to 30 minute treatment, you may find that you are thinking more clearly, and have more energy and a greater sense of well-being.

What does the color of the water mean?

EAV (Electro Acupuncture by VOLL) testing has indicated that the color of the water during a foot bath may represent the area of the patient's body being detoxed*:

Dark Green

Detoxing from the gallbladder

Black

Detoxing from the liver

Brown

Detoxing from the liver, tobacco, cells

Orange

Detoxing from the joints

Yellow-Green

Detoxing from the kidney, bladder, urinary tract, female/prostate area

White Foam

Detoxing from the lymphatic system

White Cheesy Particles

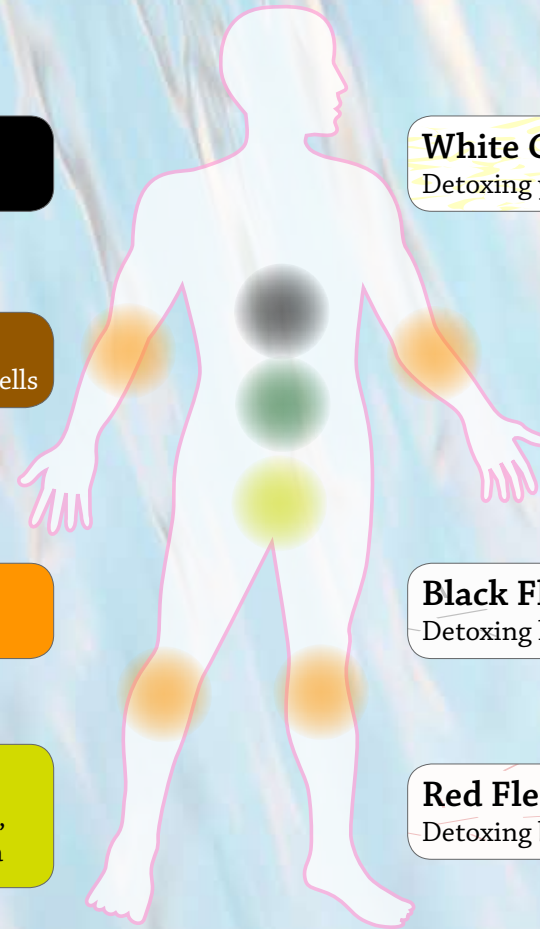

Detoxing yeast

Black Flecks

Detoxing heavy metals

Red Flecks

Detoxing blood clot material

** While the color changes in the water can be dramatic, it is not the most important factor and one must be careful about making any judgements solely based on the water color.*

Start

The array is placed into a tub of pure, filtered water alongside the patient's feet.

After 5 Minutes

Detoxification begins almost immediately and the water color begins to change.

After 15 Minutes

Toxins being released from the body may produce by-products in the water.
